

# Agro 360

We are committed to be part of the global community of leaders fighting climate change and promoting carbon sequestration by developing innovative, sustainable and inclusive agroforestry models with fair value distribution and circular economies in underdeveloped countries.

## 1 Agroforestry Operations

The base of our sustainability pyramid starts with the efficient establishment and operations of our diversified agroforestry models.

Sistemas Agroforestales Pequeños y Gdes Agricultores

Plantaciones Puras Principalmente Gdes Forestales

Reservas Privadas Pequeños y Gdes. Dueños de bosque

NICA FRANCE

Key Factors

Technical Assistance

Quality & Scales Of Genetics

Long Term Instruments

Platform + Outgrower Model

Coffee

Pequeños y gdes agricultores

Cacao

Pequeños y gdes agricultores

Wood

Pequeños y gdes agricultores

## 2 Comoditized Industry

The second pillar of our sustainability model requires scale and technology to achieve high quality and competitiveness in the first processing of our agroforestry products. It's the commodity game!

Key Factors

Short Term Instruments

Strong Partner Associativity

Coffee beans

Coco beans

Treated wood

## 3 Added Value Branded Co's

The third pillar of our sustainability pyramid requires passion, art and a profound knowledge of the products that are being made.

Key Factors

Circular economies

1-2 Local Superstar Added Value Brands

## 4 Sustainable Housing Ecotourism

Promoting our agroforestry model and convincing families that agroforestry communities are a better way of living for local families but also for tourists is our ultimate bliss.

Key Factors

Great storytelling

Customer experience

Added value brands

Social Housing

Sustainable Communities

Ecotourism

## 5 Retail Industry

Understanding distribution channels and retail strategies is a fundamental part of the equation as this is potentially one of the most profitable stages of the value chain and therefore the one level that could bring more value for all stakeholders of the value chain.

Key Factors

Great Storytelling

Customer Experience
